

Research Assistant / ML Engineer

Profile

Dipl.-Ing. in Technical Computer Science with several years of hands-on experience in software development, machine learning, and embedded systems. Experienced in implementing and evaluating ML algorithms across desktop, mobile, and embedded platforms, with a focus on performance, systems-level development, and practical engineering.

Currently focused on independent software and machine-learning projects, including Rust development, ML pipelines, Linux-based CI/CD, and developer tooling.

Experience

Independent Projects

2023–Present

Developing and maintaining a range of software and machine-learning projects, including:

- **Rust Growing Neural Gas** - implementation of a Growing Neural Gas algorithm as a Rust crate
- **Machine Learning Pipelines** - development and experimentation with ML workflows
- **CLI Backup Tool** - development of a command-line backup application
- **Linux CI/CD** - automated build, test, and development workflows

Nexus Marabu

Java Backend Developer · 2023

- Developed a backend interface for a server used in a medical environment

Fraunhofer IFF

Research Assistant · 2015–2021

- Implemented machine-learning algorithms for desktop, mobile, and embedded platforms
 - Evaluated the performance and practical applicability of machine-learning algorithms
 - Developed, maintained, and extended Android applications
 - Worked on the practical implementation of research-oriented software
-

Professional Training

de-dsb GmbH · 2024

Expert for Information Security and Business Continuity

- BSI IT-Grundschutz
- Business Continuity Management

- ISO 27001
-

Technical Skills

Systems & Embedded Development

- C / C++
- Rust
- Embedded Systems
- IoT Development

Software Development

- Python
- Java
- SQL / NoSQL
- Git / GitLab
- Linux
- CI/CD

Machine Learning & AI

- TensorFlow / PyTorch
- Image Processing
- Natural Language Processing
- Clustering
- Algorithm Evaluation & Performance Analysis

Information Security

- BSI IT-Grundschutz
 - Business Continuity Management
 - ISO 27001
-

Languages

- **German** — Native
- **English** — Professional working proficiency
